

BIG BRYAN CLUB BEING FORMED

Young Men of Salt Lake Planning to Organize Society for the National Campaign.

TO MEET THIS AFTERNOON

COMMITTEE IS COMPLETING ARRANGEMENTS.

At an informal meeting yesterday afternoon several young men of the Democratic party decided to father a movement organizing a Bryan club in Salt Lake City. A committee was selected to complete the arrangements for forming the organization, and to call the first meeting. This committee consists of John F. Tobin, William D. Ray, William C. Leary and Athol Hawkins. It will meet this afternoon in the law offices of Mr. Ray and Mr. Hawkins in the Atlas block to make the preliminary arrangements for the organization.

The proposed club will have for its purpose the assisting of the national committee in its campaign in Utah. The work of the club during the campaign will be confined to the national ticket and no active part will be taken in local politics by the organization as a whole. It is expected that among its members will be a large number of persons who, although Democrats in national politics, have different opinions with reference to the local situation. With the local issues, however, the club will have nothing to do. It will be primarily and essentially a Bryan club.

Already a large number of Democrats in the county have expressed the wish that such an organization might be formed and a membership of more than one thousand in the club is not at all improbable. One of the objects of the club will be to form harmonious connections with every Bryan club in the state; to assist those already organized in arranging for speakers on national issues in the various localities and to aid in the forming of clubs in counties where such organizations do not exist.

The new club will probably hold its first meeting in a few days, at which time a permanent organization will be effected. Those interested in the movement to form this club should notify some member of this committee and they will be personally advised as to the time and place of the first meeting of the club. The committee on organization will be glad to receive suggestions relative to the forming of the club from any Democrat in the state.

Probably the first active participation in the national campaign by the new club will be at the ratification meeting to be held by the Women's Democratic club at Saltair on next Thursday. By that time the organization of the Bryan club will have been perfected and its members will be expected to assist materially in making the gathering at Saltair a great success.

The movement throughout the state to organize Bryan clubs is meeting with approval everywhere. Already half a dozen

METHODIST EPISCOPAL CHURCH IS AFTER POLITICAL SCALP OF CANNON

Baltimore, Aug. 12.—The Methodist Episcopal church has begun an active crusade for the election of a speaker of the house of representatives "who will allow congress to vote the interstate liquor shipment bill." The church, which has over 3,000,000 communicants, has created the temperance society of the Methodist Episcopal church, with authority to represent the denomination in all temperance matters. This society is managed by a board composed of a bishop and fifteen members named by the bishop and elected by the late general conference.

The "shipment bill," which has been pending in congress for at least five years, does not seek to impose prohibition on any locality, but provides that liquor shipped from one state to another shall immediately, upon crossing the boundary, become subject to the laws of the state into which it is consigned.

"The speaker of the house of representatives," says the address, "absolutely controls its proceedings. He is opposed to this legislation. He has used the power of his office to hold it in the judiciary committee, appointed by him, on the alleged ground that it is unconstitutional. Our church, by action of the recent general conference, insisted that congressional doubt as to the constitutionality of such legislation be resolved in the interests of the people and the public morals, and the general conference unanimously adopted the report of Governor Hanly's special committee appointed to wait upon Speaker Cannon, which closes with the following words:

"We submit to our people and to all good citizens the wisdom of electing men as members of congress who believe in its validity and who are willing to enact it."

"At least one member of the house judiciary committee has been defeated for the nomination on his record on this question, and we believe that the time has come when our people who want to help secure this legislation must support for congress candidates who will not only vote for this measure if they get a chance, but will themselves support for speaker a man who will allow it to be voted upon, and that its passage is improbable until Christian voters recognize the situation and cast their ballots accordingly."

clubs have been formed and others are in the process of organization. The largest club yet formed has been organized by the young men of Logan. Nearly one thousand Democrats of Cache county are now members of the club. It is doing active work for Bryan in that county. It is almost an assured fact that the club will bring Cache county into the Bryan column and the members are working hard in order that the Bryan majority may be as large as possible.

ROOSEVELT IS FOR GOV. HUGHES

State Senator Raines Gathered That Much by Sagamore Hill Visit.

Oyster Bay, Aug. 12.—The guests at Sagamore Hill today included State Senator John Raines, author of the liquor license law which bears his name; John Mitchell, whose political activities in behalf of labor are in the capacity of manager of the trade agreement department of the National Civic Federation, and Ralph M. Easley, chairman of the executive council of the same general body.

Roosevelt Favors Hughes. Senator Raines came to see the president upon a personal matter involving two army officers, but naturally, politics in general were touched upon. Later the senator expressed the entire personal opinion that the president looked with favor upon the political status of Governor Hughes, but Mr. Raines was quick to add that the chief executive was taking no part in the campaign for the Republican gubernatorial nomination in the New York state campaign.

The visit of the former president of the United Mine Workers has excited considerable interest because of the activity in the national campaign of Samuel Gompers. But Mr. Mitchell, upon leaving Sagamore Hill, said that politics were not mentioned.

Mitchell's Visit. Mr. Easley and he, he said, came to Oyster Bay to invite the president to address the National Civic Federation at its annual meeting in New York city on Dec. 14 or some time about the middle of the month.

President Roosevelt, he said, did not accept the invitation because he was in doubt whether he would be able to keep the engagement if made. The plans of the federation's trade agreement were also discussed.

What a New Jersey Editor Says. "M. T. Lynch, editor of the Phillipsburg, N. J. Daily Post, writes: 'I have used many kinds of medicines for coughs and colds in my family, but never anything so good as Foley's Kidney Cure. I can not say too much in praise of it.' F. J. Hill Drug Co., The Never Substitutors."

BREACH BLOCK BLEW OUT

Third Horror in Sixteen Months on Board French Schoolship Couronne.

Toulon, Aug. 12.—Six persons were killed and eighteen injured in a gun explosion aboard the gunnery schoolship Couronne today off Les Salines d'Hyeres.

The accident occurred while a number of recruits were receiving instructions in handling a 164-millimeter gun, the breach of which blew out.

Three of the wounded are in a desperate condition. This is the third fatal accident to occur on board the schoolship Couronne within the past sixteen months, all of which were due to the blowing out of breach blocks. In the first, April 13, 1907, three men were killed and seven injured; and on Aug. 2 of the same year three men of the crew of a 4-inch gun were killed and five wounded. All the accidents occurred off Les Salines d'Hyeres, where is situated the French artillery school.

The Couronne is an old vessel, having been laid down in 1881, but new boilers were installed in 1898. Her armament consists of thirty-four guns of various sizes and her complement is 622 men.

TUNNEL BUILDER KILLED

Charles E. Higbee's Skull Crushed Near Glenwood Springs, Colorado.

Denver, Aug. 12.—Charles E. Higbee, aged 52, of this city, one of the world's most noted tunnel builders, was almost instantly killed last evening at Shoshone, a camp of the Central Colorado and Denver and Grand Junction railroad, near Glenwood Springs, Colo.

The fatal accident was caused by the breaking of a derrick. A guy wire struck Mr. Higbee upon the head, crushing the skull. He died within ten minutes from cerebral hemorrhage. According to reliable information, Mr. Higbee had constructed forty-nine miles of the world's greatest tunnels.

In the construction of the Simplon tunnel in Italy he is said to have broken the world's record for fast boring. He planned and executed the Tennessee Pass tunnel on the Denver & Rio Grande railroad.

MANY SHEEPMEN COMING

Gathering in Salt Lake on Aug. 25 Will Attract Many Flockmasters.

Excursions over all the railroads entering Salt Lake will bring wool growers from Montana, Wyoming, Idaho, Colorado and other states to the big gathering of sheepmen in Salt Lake on Aug. 25. As the question of starting a national storage movement will be taken up, Secretary Walker of the National Wool Growers' association is exerting every effort to have the sheep interests as fully represented as possible.

In a letter received by C. B. Stewart, secretary of the Utah Wool Growers' association, Mr. Walker states that he is now in Montana completing arrangements to have the sheepmen of that state attend the Salt Lake meeting.

DOCTOR BOUND OVER. Blackfoot, Ida., Aug. 12.—Dr. F. W. Mitchell, charged with performing a criminal operation on Mary Robb, a young school teacher, from the effects of which the girl died, today was bound over to await the action of the district court under bond of \$10,000. The preliminary hearing lasted a week.

Shirt Waists, Jumper Suits, Kimonos, Children's Dresses, White Duck Suits, Petticoats,

Values up to \$4.50. All grouped and cast into one grand selling lot

NINETY-FIVE CENTS

The Shirt Waists certainly are beautiful. There are dozens of styles to choose from—lace and embroidery trimmed, long or short sleeves, open back or front—all sizes. The second big attraction is those dainty white dresses for the young girls, ages from 6 to 14 years, all nicely trimmed, all new, fast goods. Good values at \$3.50 and \$4.00, all at the one price, 95c.

There is a line of long Kimonos, made up in the crepe cloth, that sold as high as \$2. Large floral design. About twenty-five in all. Don't come late—you'll be sorry, for they will not last long. The white Duck Dress Skirts, a good range of short lengths, made of extra good material—white only. About fifteen Wash Jackets, values up to \$4.50, sizes from 34 to 38. A few white, also a few dark colors. They won't last long. Come early. Then comes those Mercerized Petticoats, good values at \$1.75. A good quantity in black; a few light colors. We can safely say that these items at the above prices are some of the greatest values that were ever advertised. We advise an early call—as the quantities in some are small.

Carey Act Lands

Opening and Drawing September 28, 1908

Is \$6.00 per Acre per Year for 10 Years Too High a Price for Irrigated Land?

Irrigated land is never "cheap land." The men for whom the best is a little too good do not come to Utah. They go where land is only a few dollars per acre, and where there is no market at all. Incidentally, they often wear wooden shoes.

But the men who have the courage and confidence that they can use the best tools and produce the best results, they are the men who are settling the irrigated lands of Utah. Utah is a poor man's country. Nine-tenths of the men who own their irrigated farms came here with little or nothing.

Utah is now one of the famous irrigated districts of the world. Not long ago a parcel of land in Salt Lake valley sold for \$500 per acre. Too much? Well, the man who bought it was the man who was settling it for a share of the crop for ten years, and he made the money to buy it out of the crops he raised on it.

Better not try to convince him he paid too much for it. The Pahvant Valley farmer gets better prices than the Salt Lake Valley farmer, because he is far away from any agricultural competition and sells direct to the mines and smelters. If you could make as much per acre in one year as your land would cost you in ten annual payments, would \$5.00 per acre for ten years be too high a price for your land?

That's the argument you must overcome with us, and, Mr. Man, we have the proof on you.

There is land and land, but the Carey Act Land Opening in September will narrow down the available land for you on the ten-payment plan to a minimum unless you get in early.

LINEMAN RECEIVES SHOCK.

Telephone Wire Comes in Contact With High Power Circuit.

While repairing the telephone wires of the Rocky Mountain Bell Telephone company at Eleventh East and Twelfth South streets Lester Garrett, a lineman,

was rendered unconscious by the shock of the electric current in the power wires of the Utah Light & Railway company.

The linemen were stringing wires across the street and in some manner the wire was allowed to sag, coming in contact with the power wire of the street railway system, the current giving Garrett a severe shock. His injuries are not dangerous.

S.S.S. CURES ECZEMA, ACNE, TETTER ETC.

The skin is an index to the quality of the blood. Eczema, Acne, Tetter, pimples, rashes, eruptions, etc., show that some unhealthy humor or acid impurity is diseasing and corrupting the circulation, so that instead of supplying nourishment and strength to the fine, delicate tissues of the skin, it is continually pouring out its acid and unhealthy accumulations. External applications of salves, washes, lotions, etc., may relieve some of the itching and other discomfort caused by skin troubles, and for this reason should be used, but such treatment cannot reach the humor-laden blood, and therefore cannot cure. A thorough cleansing of the blood is the only cure for skin diseases. S. S. S., a purely vegetable preparation, is the best and quickest remedy. It goes down into the circulation and neutralizes and removes the acids, impurities and humors, thoroughly purifies the circulation and permanently cures skin diseases of every kind. When S. S. S. has driven the humors and impurities from the blood, and cooled and cleansed the acid-heated circulation, every symptom passes away, the skin is again nourished with rich, healthful blood and the trouble cured, as the cause has been removed. Book on skin diseases and any medical advice free to all who write. THE SWIFT SPECIFIC CO., ATLANTA, GA.
